

## **ISOCLENE – ISOPROPANOL CLEANING FLUID**

### **PRODUCT CODE**

ISO250

### **PACKAGING**

250 ml pump action can

### **DESCRIPTION**

Internationally approved cleaning fluid conforming to standards set by major OEM manufacturers. Isopropyl alcohol for general cleaning use, specifically for use by engineers due to high concentrate of Isopropyl alcohol (99.7%).

### **WHERE AND HOW TO USE**

Isoclene can be used to clean magnetic read/write heads or indeed anywhere That specifies the use of Isopropanol cleaning fluid (IPA). Shake can well and either spray directly onto component and clean with SAFEWIPES or FOAMBUDS, or spray onto one side of a SAFESLEEVE – the other side remains dry to achieve a wet/dry cleaning action.

### **SELLING POINTS**

1. Does not leave a residue.
2. Highly efficient and pump action spray ensures controlled precision making the product economic to use.
3. Formulation approved by major rigid media manufacturers.
4. Environmentally friendly, no propellants or CFC's used.
5. Ideal for cleaning magnetic read/write heads.

### **Products to use with Isoclene for precise application:**

**SAFEWIPES** - High quality cotton squares (Product Code SWI 100/400)

**FOAMBUDS** - Foam tipped buds (Product Code FBU 100)

**SAFESLEEVES** - Cotton Cleaning Sleeves (Product Code SSL 100)

**SAFEWANDS** - Cleaning Spatulas for use with SAFESLEEVES (Product Code SWA 010)
